HOLY CRAP. HOW MUCH?

Don't worry, we don't love math either. So we've done it for you. Please note that these suggested 6-month budgets are on the lower middle side, but not the "eat local food or cup-of-soup at every meal and cut corners everywhere" budgets. They also don't account for eating out every night in Bali or getting massages daily. **Please budget enough money to survive for a few days after the internship ends as well! Deposits take a few days to be processed back to you.**
